

Alsad Klopic

Bosnia and Herzegovina | alsadklopic8@gmail.com

I'm a motivated individual from Bosnia with a background in healthcare as a medical biller, is eager to transition into front-end development. Proficient in HTML, CSS, and JavaScript, Alsad brings strong attention to detail and problem-solving skills. Seeking opportunities to contribute to dynamic projects and further develop expertise in front-end development.

Work Experience

Billing Specialist • Global billing group

January 2023 - Present | Zivinice, Bosnia & Herzegovina

- As a Billing Specialist for a leading healthcare company in the US, I excel in accurately managing billing processes, from reviewing medical records to submitting claims. Proficient in billing software and electronic health records, I ensure compliance while maximizing efficiency. My strong attention to detail and effective communication skills facilitate timely billing submissions and resolution of inquiries, contributing to the organization's financial success.

Account Receivable Specialist • Injury Medical Solutions

January 2022 - December 2022 | Zivinice, Bosnia & Herzegovina

- As an Accounts Receivable Specialist in healthcare, I excel in managing patient accounts and ensuring timely payments. With expertise in reconciling accounts and communicating with insurance companies and law offices, I streamline processes to optimize revenue collection. My strong communication and negotiation skills contribute to successful resolution of outstanding balances, enhancing the financial health of healthcare organizations.

Education

Univerzitet u Tuzli

Field of study • 2019 - 2022

After enrolling in mechanical engineering studies at the University of Tuzla and completing two years, I realized it wasn't where my true passions lay. However, this realization led me to discover my genuine passion for coding. Recognizing the endless possibilities in this field, I made the decision to transition my career path towards coding, driven by my enthusiasm for problem-solving and innovation. Now, I am eagerly seeking opportunities to pursue a career in coding and apply my skills in new and exciting ways.

Skills

- Front-end Development: Proficiency in building responsive and user-friendly interfaces using HTML, CSS, and JavaScript.
- Web Design: Experience in creating visually appealing and intuitive web layouts using HTML and CSS.
- JavaScript Development: Strong skills in JavaScript for adding interactivity and dynamic functionality to web applications.

Languages

- Bosnian - Native
- English - Professional

- Business research
- Healthcare Billing: Experience in managing billing processes, reviewing medical records, interpreting billing codes, and submitting claims to insurance providers.
- Accounts Receivable: Proficient in reconciling accounts, addressing patient inquiries, and communicating with insurance companies and law offices to resolve outstanding balances.
- Time Management: Ability to effectively prioritize tasks, manage deadlines, and allocate time efficiently to ensure productivity and project completion.
- Communication: Strong verbal and written communication skills, enabling clear and effective interaction with team members, stakeholders, and clients.
- Problem-solving: Proficiency in identifying, analyzing, and resolving complex issues, coupled with a creative and proactive approach to finding solutions.

Certifications

HTML, CSS & JavaScript certifications

I hold certifications from Codecademy in HTML, CSS, and JavaScript, showcasing my proficiency in these essential web development technologies. Through these courses, I gained hands-on experience in building and styling web pages, adding interactivity, and optimizing performance. These certifications highlight my commitment to mastering key skills in front-end development.
